MAKING THE CONNECTION

How Small Business is Gaining a Competitive Edge through Family-Friendly Policies

PRESENTED & SUMMARIZED BY:
THE BEST PLACE FOR WORKING PARENTS®

WITH SUPPORT AND REPORTING BY:
SMU CENTER ON RESEARCH AND EVALUATION
How are Small Businesses implementing the Top 10 Best Place for Working Parents® policies and what variability exists in implementation?

How do Small Businesses Experience a Boost through Offering the Top 10 Best Place for Working Parents® Family-Friendly Policies?

As part of our ongoing research partnership with SMU’s Center on Research and Evaluation (CORE), Best Place for Working Parents® is proud to share the results of this study which delves into key tangible benefits and employee outcomes that small businesses can experience when implementing the Best Place for Working Parents® top 10 family-friendly policies.

With a majority of the growing Best Place for Working Parents® national network comprised of small- and micro-sized businesses, it is imperative that small business leaders see a clear connection between the implementation of these workforce innovations and the return to their business bottom line.
Small businesses make up 99% of businesses in the U.S., and over half of the designated businesses in the national Best Place for Working Parents® network. In this study, the Best Place for Working Parents® research-backed family-friendly policies showed a positive impact on both personal and professional employee outcomes across a number of industries. These outcomes tied to measurable benefits both to small businesses and the people who work for them – underscoring that family-friendly is (small) business-friendly.  

**Key Takeaways**

Small businesses make up 99% of businesses in the U.S., and over half of the designated businesses in the national Best Place for Working Parents® network. In this study, the Best Place for Working Parents® research-backed family-friendly policies showed a positive impact on both personal and professional employee outcomes across a number of industries. These outcomes tied to measurable benefits both to small businesses and the people who work for them – underscoring that family-friendly is (small) business-friendly.  

**Overview & Scope**

**Employee Health**

- Remote Work: 2X Better
- Child Care Assistance: 6.8X Higher
- Paid Time Off: 16.7X Higher
- Onsite Child Care: 4.1X Greater

**Personal Relationship Satisfaction**

- Remote Work: 2.2X Higher
- Child Care Assistance: 6.7X Higher
- Paid Time Off: 16.7X Higher
- Onsite Child Care: 4.1X Greater

**Social Wellbeing at Work**

- Remote Work: 2.1X More
- Child Care Assistance: 3.9X More
- Onsite Child Care: 7.4X Higher

**Associated Employee Outcomes: As Implementation Quality Increases, Employees Experience Increased Outcomes**

1. 1 medium and 1 large business are included in the study.
2. With every 1 point increase across a 4-point scale. See Appendix A for additional information.
3. Based on the relationship between handbook data and surveys.
4. Based on the relationship between handbook data and surveys.

**Associated Business Outcomes: As Implementation Quality Increases, Businesses Experienced Increased Outcomes**

- **Flexibility**
  - 123.2X More
  - Supportive Workplace
- **Healthcare**
  - 4X More
  - Likely to Be High Performer
  - Supportive Workplace
- **Remote Work**
  - 2.1X More
  - Motivated
- **Maternity Leave**
  - 50.8X More
  - Likely to Be High Performer
  - Supportive Workplace
- **Child Care Assistance**
  - 3.9X More
  - Motivated
- **Onsite Child Care**
  - 7.4X Higher
  - Retention
  - To Employer
Positive associations exist between a number of employee behaviors and outcomes for small businesses across seven of the Best Place for Working Parents® family-friendly policies.

Participating Business Breakdown: Family-Friendly Policy ROI Deep-Dive

This report includes a sample size of 49 businesses from across the national Best Place for Working Parents® network, from which 229 employee surveys across 20 organizations were strategically sampled. A majority of small and micro businesses participated in this study, ranging in industry and geographic location.

FIGURE 2. Participation by Region

Total Participating Businesses

FIGURE 3. Participation by Industry

- Business Information: 26.5%
- Education: 22.4%
- Food & Hospitality: 8.2%
- Government: 8.2%
- Healthcare: 8.2%
- Manufacturing: 8.2%
- Nonprofit: 4%
- Philanthropy: 4%
- Professional Services: 4%
- Real Estate & Housing: 4%
- Technology: 4%
- Other: 2%

FIGURE 4. Participation by Size

- Micro (0-24): 69.4%
- Small (25-200): 18.4%
- Medium (201-999): 4%
- Large (1000+): 2%
How Are Small Businesses Implementing the Top 10 Family-Friendly Policies? 

For each of the Top 10 family-friendly policies, SMU Center on Research & Evaluation created a rubric to evaluate level of implementation for each business in the study. The following pages breakdown how each business was evaluated per policy as well as how the sample implemented these policies as a whole.

HEALTHCARE
Health, dental, and vision insurance offered by the employer and often partially or fully paid for by the employer. Important aspects that influence the overall impact of this policy include the level of availability and affordability, as well as the offering of supplemental health care programs.

PAID TIME OFF
Paid holidays, paid vacation, paid sick days, and personal days.

PARENTAL LEAVE
Time taken by a mother during and after pregnancy to recuperate physically from having a baby and time taken by a parent (male and female) to bond with a new baby. Key aspects of this policy include employee support, company financial support, and supplemental healthcare programs.

NURSING BENEFITS
Policies that give mothers privacy during milk expression by designating a private space with all the necessary things provided.

BEST PLACE DESIGNATION
Competitive designations and/or awards that convey certain workplace and employer values such as trust, transparency, culture, and supportiveness to current and future employees, specifically defined as: a) a survey of its employees on organizational culture that indicates 80% or higher score on employee satisfaction, b) an external “Best Place to Work” designation, and/or c) an independent research study citing a healthy organizational culture.

ONSITE CHILD CARE
Companies that offer onsite child care to employees as a convenient and affordable care option.

CHILD CARE ASSISTANCE
Any programs or initiatives that help to reduce the demands of being a child caregiver. Common types of employer childcare assistance include offering Flexible Spending Accounts (FSAs), associating with local/nearby child care centers, providing resource and referral services, and subsidizing child care.

BACKUP CHILD CARE
An option for parents in emergency situations or for last-minute care if their regular child care falls through.

FLEXIBLE HOURS
Allowing for an alternative to “normal” working hours.

REMOTE WORK
Ability for an employee to have a flexible work location, outside of the organizational office.
Policy 1: Company-Paid Healthcare

98% of surveyed businesses offer Healthcare Benefits.¹

<td>Employer implements a goal-based accountability system and requires some monitoring documentation of employee activity.</td>
<td>Employer implements a goal-based accountability system.</td>
</tr>
<tr>
<td>Technology</td>
<td>Company requires employees to purchase the required technology for remote work.</td>
<td>Company only pays for a laptop that can be used at work or at home.</td>
<td>Company pays for some of the required technology. (Ex. Pays for computer and cloud storage but not home wi-fi or additional monitors.</td>
<td>Company provides all employees the technology required to remotely work, free of charge.</td>
</tr>
</tbody>
</table>

FIGURE 14B. Business Trends in Implementation

Businesses offering remote work scored highest in providing necessary technology supports to employees working offsite, as well as basing accountability on trust. Businesses scored lowest in providing employees autonomy to make their own remote work decisions.
PART II

SMALL BUSINESS, BIG RETURNS

How Do Small Businesses Experience a Boost by Offering Family-Friendly Policies?

Small businesses offering health care or maternity leave policies can count on a more agile, resilient, and innovative workforce. This highlighted workforce is composed of employees that self-report greater job performance qualities, including looking ahead, open to changing course as needed to confront new and challenging issues, and thinking outside the box to develop the most beneficial solutions for their company.

Job Satisfaction, Loyalty, & Retention

Our study revealed that small businesses offering onsite child care experience a highly loyal and satisfied workforce that intends to stay with their employer for at least the next 12 months.

Did you know?
Our study revealed that small businesses offering onsite child care experience a highly loyal and satisfied workforce that intends to stay with their employer for at least the next 12 months.

How do you feel about your job?
On a scale of 1 (terrible) to 5 (delighted).

How loyal do you feel to your employer?
On a scale of 1 (not loyal at all) to 5 (extremely loyal).

If I have my own way, I will be working for this same company one year from now.
On a scale of 1 (strongly disagree) to 5 (strongly agree).

The average turnover rate among U.S. businesses is 24.7%.

Our motivation survey questions asked, “To what extent do these statements represent the reasons you are currently involved in your work (on a five point scale)?”

Our motivation survey questions asked, “To what extent do these statements represent the reasons you are currently involved in your work (on a five point scale)?”

Job Satisfaction
How do you feel about your job?
On a scale of 1 (terrible) to 5 (delighted).

Loyalty to Employer
How loyal do you feel to your employer?
On a scale of 1 (not loyal at all) to 5 (extremely loyal).

Retention
If I have my own way, I will be working for this same company one year from now.
On a scale of 1 (strongly disagree) to 5 (strongly agree).

Benefits
For the benefits it provides me.

Income
Because it allows me to earn money.

Work-Life Balance
Because this work provides me with good work-life balance.

The average turnover rate among U.S. businesses is 24.7%.

Only 1/3 of U.S. employees feel motivated at work.

FIGURE 16. Job Satisfaction, Loyalty, & Retention Assessment

FIGURE 17. External Motivation Assessment (1 = Does Not Correspond, 5 = Corresponds Exactly)
Supportive Workplace Culture

When small businesses provide health care benefits, maternity leave, onsite child care, child care assistance, or flexibility, they gain the benefit of employees who feel supported at work and feel a higher level of overall work-life balance.

Employees responded to questions about the culture at their workplace:

1. “There is an unwritten rule at my place of employment that it is okay to take care of family needs on company time.”

2. “At my place of employment, employees who put their family or personal needs ahead of their jobs are not looked on favorably.”

3. “In my workplace, mothers and fathers are encouraged to take parental leave.”

4. “In my workplace, the culture supports nursing employees and employees feel comfortable taking time during the workday to express breast milk or nurse.”

FIGURE 18. Supportive Workplace Culture Assessment (1 = Strongly Disagree, 5 = Strongly Agree)

56% of workers rank a strong workplace culture as more important than salary.

Employee wellbeing translates to FEWER sick days, higher performance, and lower turnover.16

Family Wellbeing

“I am satisfied with my family life.”

“The balance between my work and family life is excellent.”

Workplace Social Wellbeing

“My colleagues are a source of comfort and support.”

Personal Social Wellbeing

“I am content with my friendships and relationships.”

FIGURE 19. Personal & Family Wellbeing Assessment (1 = Strongly Disagree, 5 = Strongly Agree)

- Satisfaction with Family Life: 4.14
- Satisfaction with Family-Work Balance: 3.73
- Workplace Social Wellbeing: 4.09
- Personal Social Wellbeing: 4.04

RISING ABOVE THE CROWD

Small businesses who implemented paid time off, child care assistance, or remote work boosted employees’ self-reported personal wellbeing. Child care assistance policies also increased family wellbeing, while onsite child care results in higher self-reported social wellbeing in the workplace.

SMALL BUSINESS, BIG RETURNS

How Do Employees Benefit from their Employer’s Family-Friendly Policies?
Health

Remote work policies within small business environments can allow employees to enjoy higher rates of physical and mental health – up to two times greater health outcomes than those businesses without remote work policies.

**REMOTe WORK**

**ASSOCIATED POLICIES**

**Did you know?**

Healthy employees can lead to **HIGHER** productivity, reduced absenteeism, and lower healthcare costs – in addition to higher employee morale.

**Rising Above The Crowd**

**Physical Health**

“In general, how would you rate your physical health?”

**Mental Health**

“How would you rate your overall mental health?”

BetterTime, Co.
The Connection is Clear: Family-Friendly Policies Create Thriving Workplaces for Employees and Employers

Across the U.S., small businesses of diverse industries and geographies are experiencing tangible benefits— including higher rates of employee retention, loyalty, satisfaction, and productivity—through the implementation of the Best Place for Working Parents® family-friendly policies.

Family-friendly policies provide clear benefits to working parents who often experience measurable improvements in their work-life balance and wellbeing when they are able to access policies like flexibility, paid time off, or child care assistance through their employer. However, this report also aimed to highlight the definitive benefits to businesses that can be garnered through the adoption of these family-friendly policies.

Indeed, this report showed that employers who implemented a variety of these policies experienced outcomes that directly impact business productivity and profitability:

- Greater employee motivation
- Enhanced employee performance
- Higher retention rates
- Increased loyalty
- Physically and mentally healthier employees
- Employees’ perception of a more supportive workplace

Further, this study shows that family-friendly policies are not “one size fits all”—there are a variety of policies, not just one or two, that can provide benefits to both employees and employers. Small businesses, in particular, are proving that they are able to meaningfully participate and even compete in the family-friendly benefits arena—no longer are these policies coveted just at large multi-state or multi-national corporations.

At Best Place for Working Parents®, we believe that businesses of all sizes can implement policies that benefit both their working parent employees and their businesses’ bottom line. This study proves that regardless of business profile—from 10 employees to 10,000—there are best-practice policies that allow businesses to enrich their culture, deepen employees’ commitment, boost productivity, and ultimately, create a happier, healthier workforce that will provide a competitive advantage today, and a sustainable outlook for the future.

About Best Place for Working Parents®

The Best Place for Working Parents® is a growing network of business leaders proving that family-friendly is business-friendly. Through a first-of-its-kind 3-minute online business self-assessment, organizations across the country are gaining this competitive designation that recognizes innovation across the top 10 research-backed family friendly policies proven to benefit working parents AND employers’ bottom line.

Our online self-assessment and designation was developed together with 100 business leaders who recognized family-friendly practices as a critical lever for catalyzing and empowering a changing workforce, and as a keen business strategy for attracting and retaining today’s top talent.

The Best Place for Working Parents® top 10 research backed family-friendly policies are relevant to businesses of every size and industry, and include low- or no-cost options that are proven to boost employee attraction, retention, loyalty, productivity, and engagement. The Best Place for Working Parents® is supported by national research that demonstrates the power of these practices in impacting working parents and their families, and for the businesses that implement them.

The 3-minute online self-assessment instantaneously allows business leaders to see if their organization earned a Best Place for Working Parents® designation, along with a dashboard of their company’s results as compared to other businesses of like size and industry. The self-assessment results dashboard is dynamic and updated each time a new business takes the assessment.

The original sample consisted of 49 organizations who completed interviews and provided handbooks for review. From this original sample, 20 businesses also participated in surveys. Across these 20 businesses, a total of n=229 survey responses are included in these analyses.

Policy Implementation Rubric

The relationship between Best Place for Working Parents® policies and outcomes were measured by looking at how policies were described in employee handbooks and how they were described in interviews. SMU Center on Research and Evaluation (CORE) coded the handbook and interview responses on a scale from 1 to 4 with 4 representing better or stronger presence of the policy. Regression analyses then compared the magnitude of the policy (the 1 to 4 score) at each business with their employees’ survey responses. These gave us results that related the strength of a policy to employee outcomes. For example, if a business had a score on remote work (on a 4-point implementation scale) that was one point higher than other businesses in the sample, then the odds of an employee reporting high satisfaction with their personal social relationships was 2.2 times greater than employees of other businesses in the study.

Data Sources

Each key evaluation question utilizes three main data sources.

- Employee Survey: The employee survey measures outcomes for employees such as job satisfaction, motivation, loyalty to employer, engagement, innovation, resilience, agility, work-life balance, and wellbeing.

- Business Interview & Rubric Score: Business leaders or HR designees were interviewed about the family-friendly policies in place at their organization. The interview responses were scored on a rubric that assessed the extent to which key facets of the policies were in place in practice.

- Employee Handbook-Confirmed Rubric Score: Following the interview, for organizations that provided an employee handbook or policies and procedures document, a second set of scores using the same rubric was assigned to each organization representing the extent to which policies were in place in writing.
